## Consolidated Financial Statements

For the quarter ended January 31, 2004 (expressed in Barbados dollars)

**FIRSTCARIBBEAN**  
INTERNATIONAL BANK

### Chairman's Review For the quarter ended January 31, 2004

I am pleased to advise that despite challenging economic conditions your Bank has achieved solid results both in terms of profit and loan growth during the first fiscal quarter. Additionally, major progress continues to be made against our blueprint for integrating the two heritage banks.

The integration programme, which includes re-branding and implementing a standard technology platform across the region, is on track to be completed by mid-year. We continue to hold to a tight implementation schedule, while staying within budget and exceeding synergy targets.

Integration is a very exacting and demanding undertaking and in certain instances has affected customer experience. We thank our customers for keeping faith with us during this exercise. We believe that we have made considerable progress in this area and we remain totally committed to the proposition that our customers must receive the best quality service possible.

In terms of financial results, excluding goodwill amortisation (a non-cash item) of \$7.9 million and integration-related costs of \$6.9 million, net income for the quarter was \$52.8 million. This result

was \$2.8 million or 6% higher than in Q1/2003, and is 12% higher if one excludes non-recurring items from the comparison.

Loans have grown by \$240 million over the quarter, a reversal of the declining trend seen throughout much of fiscal 2003.

The rigorous credit management practices of the Bank continue, with the required provision for credit losses declining by \$3.0 million from the prior year despite difficult credit conditions.

Return on equity on a cash basis was 12.9% annualised for the first quarter and cash earnings per share were 3.4 cents, which is flat with the prior year.

We believe that the successful completion of the integration of the Bank and the further realisation of synergies will impact the performance of the Bank in 2004. We also expect that market conditions will continue to improve in many of our markets, thereby promoting sustained growth in loan aggregates and profitability.
